LITTLE ONES BECOME BIG ONES

Many of our friends ask us why we put forth such efforts as we do to get small accounts, many of which are started with deposits of only one dollar. It is true that such accounts do not begin to repay the cost of handling.

However, we are building for the future. These small accounts will grow. Many of them will in time become very profitable. The small depositor of today will be the large depositor of tomorrow. The boy who opens the dollar savings account will in a few years be the business man with a valuable commercial account.

We want the youngsters to get in the habit of banking with us now, so that they will stay with us during the years to come.

Miss Mildred Wood and Mr. James Anderson were married at the home of the bride last week; the bridal party passed through the village here on their way to the station.

Every night during the week good sized congregations gathered at the Presbyterian church here to hear Captain Francis preach and there were many converts, christians were revived and quickened in the faith, all denominations joined in making the meeting one of peculiar interest. A free will offering was called for and the people responded generously and cheerfully to the amount of \$100. There was no excitement in these meetings and some elderly men who were tired of the sinful life they had been leading came out on the Lord's side. Captain Francis and Rev. Charles Barrell visited the jail and prayed with young Pendleton who is confined there.

Mr. LeSueur at Slate River mills tells me he has about 12000 bushels of wheat at the mill and he says it is all he can do to keep it from being ruined by the bugs that are multiplying so rapidly in it. The agent of the Government who has been to the mills says this little black bug is a new kind of insect in this country. Mr. LeSueur advises people to use new barrels to put flour into and to hold their wheat until it turns cold and to use chemical preparations to kill the insects.

The public health is endangered by the use of old wells along the public road, where in some instances dead things are in the water so as to cause it to smell and taste and the owners have no way of long that they do not even know that it tastes and smells bad.

I suppose this has been the hottest month of September of which we have any record and the exceeding dry weather has kept people from following wheat land little tobacco land will be sown in wheat and it looks like a small crop of wheat will be sown.

I sold my cattle last year after I had mentioned the fact in this paper that some fat cattle were to be had here and now a buyer could pick up a very nice bunch of fat cattle here.

I issued a burial permit for the burial of a young colored man named Clinton Washington the past week; the cause of death said to be tuberculosis.

Mr. F. H. Spencer has again changed his store house and put in a glass front.

Both of the garages here seem to be doing very good business and people buy new cars and new cars constantly.

Was Very Weak

"After the birth of my baby I had a back-set," writes Mrs. Mattie Cross, of Glade Spring, Va. "I was very ill, I thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took . . . medicine, yet I didn't get any better. I was constipated and very weak, getting worse and worse. I sent for Cardui."

TAKE

CARDUI

The Woman's Tonic

"I found after one bottle of Cardui I was improving," adds Mrs. Crossville. "Six bottles of Cardui and . . . I was cured, yes, I can say they were a God-send to me. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.
